

# LIBRARY EXPRESS DIRECTORY AND GUIDE

November 2011

Manitoba *Library* Consortium  
Consortium de *bibliothèques* du Manitoba

# **Policies and Procedures**

## **LIBRARY EXPRESS**

### **PURPOSE**

LIBRARY EXPRESS is a project of the Manitoba Library Consortium Inc. It is designed to provide clients of participating libraries with timely delivery of materials. The need for improved cooperation among information providers is essential to meet the increasing demand for services and resources from clients, particularly in a period of financial restraints.

Libraries have long recognized the need for cooperative efforts by offering such services as interlibrary loan. They have also recognized that this service must be timely if it is to effectively meet clients' needs.

Consortium members who participate in Library Express work collaboratively to ensure fast and cost effective delivery of materials between libraries using a courier, e-mail, fax, ariel or mail delivery systems depending upon format and need. All participating libraries guarantee that they will respond to requests within a 48 hour period (see Policies below).

### **LIBRARY EXPRESS POLICIES**

- Requests from participating libraries will be handled on a priority basis.
- The requested item, or a response, will be sent within 2 business days of the request being made by the initiating library, unless otherwise mutually agreed.
- Within the city the Library Express courier may be used to deliver books, microfilm, audiovisuals or articles. The courier may also be used to send back a library's books returned by a patron in error to another library, and for correspondence between libraries. Libraries may also use their own courier system to fill the needs.

Libraries outside the city of Winnipeg must provide the same commitment to rapid response times. Urgent requests can be shipped by a courier service serving that geographic area. Courier costs are the

responsibility of the requesting library. Supplying libraries are encouraged to provide Library Book Rate labels where appropriate.

- Fax transmission or other electronic delivery methods are acceptable methods of delivery where mutually agreed upon by the borrower and the lender.
- Standard bibliographic description in accordance with ILL code is required. Incomplete information means that the request loses priority treatment.
- Requests for known items only will be accepted.
- Charges for photocopying may be assessed in accordance with the lending library's needs and policy.
- Individual libraries are responsible for ensuring that all Library Express participants are aware of charging policies, and for making appropriate arrangements for invoicing and payment.
- The only limits on the number of pages photocopied will be those defined by Canadian Copyright law.
- Existing local library policies regarding interlibrary loan service, including client eligibility, loan periods, and non-circulating items or collections apply to all requests.

*March 1, 1996, revised September 2001, revised February 2004, revised September 2005, revised September 2008, revised May 2009, revised April 2010*

**Daily Service:** The Library Express courier arrives daily at each of the participating libraries to pick up and deliver items. The cost of the daily service is shared equally among the participants.

**Call-In Service:** Participating libraries may use the Library Express courier for pick up and delivery of interlibrary items. Libraries call the courier on an as-needed basis. Requesting libraries are charged on a per-trip basis for the pick up and return of items they have requested. Libraries may also use their own courier if they wish. Usage charges will be reflected in a monthly invoice from MLCI.

### **Extended Express Service**

Libraries outside the city of Winnipeg may participate in the Extended Express service. Libraries provide the same commitment to rapid response times but use mail or fax for delivery of materials depending upon format. Urgent requests can be shipped by a courier service serving that geographic area. Courier costs are the responsibility of the requesting library. Supplying libraries are encouraged to provide Library Book Rate labels where appropriate.
